University of Notre Dame 2013

BS - Computer Science

Current Title: Software Engineer II

Web / App Developer

Proficient in English, Spanish, and French

Professional Experience

S&P Capital IQ

Software Engineer I & II
August 2013 - Present

Building Java based desktop application that provides users with real-time market data. App leverages HTML, CSS, JS for rendering UI and Java to handle data transfer / communication.

University of Notre Dame

Software Engineer
Summer 2013

Created Android app that allows users to view and manipulate 3D OpenGL models leveraging the latest touch screen mobile technology.

S&P Capital IQ

Software Engineer Intern
Summer 2012

Developed a C# script to parse through an ASP.NET page and convert it to a JavaFX doc. Also wrote a JS plugin to display real-time data on a dynamic HTML page.

University of Notre Dame

Research Intern
Summer 2011

Implemented an Android app that allowed users to take and submit photos with meta data to a MySQL database in order to crowd source information after natural disasters. The project utilized the user's phone camera and location services then uploaded the data via Java / PHP.

Proficient With

- Javascript
- jQuery
